BIODIVERSITY MAINSTREAMING

Integrating biodiversity, development and poverty reduction

A State of Knowledge Review

Forthcoming in 2013 as an output of the *NBSAPS 2.0* project

State of Knowledge Review

PLANNED REPORT OUTLINE

- Section 1: What is biodiversity mainstreaming?
 - What are the desirable outcomes?
 - What are the possible entry points?
- Section 2: Evolution of biodiversity mainstreaming
 - Builds on and learns from environment , climate, gender mainstreaming etc
- Section 3: Different approaches to biodiversity mainstreaming
 - Mainstreaming into production sectors
 - Mainstreaming into development planning
 - By developing countries
 - By development cooperation agencies
- Section 4: Next steps
 - Summary and link to forthcoming guidelines
- Appendix

Section 3: Different approaches to biodiversity mainstreaming

- Mainstreaming into production sectors
 - Brief review, case studies
- Mainstreaming into development planning
 - By developing countries
 - Case studies of approaches at different levels (PEI-Type upstream interactions with national planning processes; downstream practical approaches eg CBNRM)
 - By development cooperation agencies
 - Collective (eg OECD DAC)
 - Individual agencies – building on CBD review
