

Vision/outcomes for Botswana

Main issues

- Biodiversity loss
- Fragmented policies
- Development priorities
- Limited financial assistance for biodiversity related projects.
- No linkages between researchers and policy makers (govt)
- Land use planning

Vision/Outcome 1

- Biodiversity inclusive policy frameworks
 - Inclusion of natural resource capital in the natural system of accounting
 - National/District/Urban Development Plans
 - Inform/influence decision making processes across all sectors.

Vision/Outcome 2

- Increased funding for biodiversity related projects.
 - Funding for implementation of biodiversity related Action Plans e.g. NBSAP, NAP, MFMP, ODMP e.t.c.
 - Government
 - Private entities
 - International development partners

Thank you
