# Vision for Biodiversity mainstreaming

Biodiversity issues and concerns are integrated in all sectoral planning and development activities both at national and grassroots level and adequate resources are provided to ensure conservation of biodiversity and benefits to indigenous communities

# Mainstreaming outcomes

- ✓ Fiscal Policy change-embrace biodiversity
- ✓ Legislation/Policy reforms and institutional framework in place
- ✓ Embrace bio-trade and CBNRM leading to increased investment
- ✓ Integration of biodiversity in mining and prospecting activities- Biodiversity offsets, restoration, rehabilitation fund
- ✓ Strong Political Buy (national and regional level)
- ✓ Biodiversity integrated in the educational system

# Thank You
